The Great English Buokseller and Leader of Conservatives Passes Away. LONDON, Oct 6.-Rt. Hon. William Henry Smith, first lord of the treasury and government leader in the house of ommons, who was recently created lord warden of the Cinque ports, died to-day. He had been ill for some time past and yesterday was suddenly ansounced to be in a most critical condition. A conference of physicians was called, but they were powerless to benefit their distinguished patient.

William Henry Smith was the son of the founder of the firm of W. H. Smith & Son, railway station news agents and booksellers. As everybody who has visited England must remember, every tepot there of any importance is pro-

He was born on June 14, 1825, and was educated at the grammar school, Tavistock.

His first position of prominence in politics was in July, 1865, when he was an unsuccessful candidate in the conservative interest for a sent in the house of commons as representative from Westminster.

In 1874 he was made financial secretary of the treasury and gradually rose might cut matters short by taking me in positions of trust under various conservative governments.

HEALTH OF THE ARMY. " operations of Surgeon-General Suther-

land's Bureau For the Year. WASHINGTON, Oct. 7.-Surgeon-Gen-

eral Sutherland has submitted his annual report upon the operations of his bureau for the past year to the secretary of war.

In his report he speaks of the general efficiency of the hospital corps shown during the Sioux campaign, and urges that 86 per month be added to the pay of privates in this corps as an inducement to enlist men to enter it.

The general health of the army, the report shows, is better than last year. The number of men constantly sick was 42.71 per 1,000 this year, and 44.12 last year. The cases of treatment for alcoholism numbered 40.73 per 1,000 as against 41.43 in 1889, and 56 68, the average during the previous decade. He also reports a great improvement in the diet of the men during the last year.

Gen. Sutherland strongly commends that a system of athletic exercises be established at each post to improve the physique of the men, as this does not follow from military drills.

SEA ISLAND COTTON.

A Combine Forming to Control the Sale of

CHARLESTON, S. C., Oct. 7 .- A conin this state is called for Thursday next for the purpose of organizing a combine against the sale of cotton seed. The object is to effect a combination by which the Georgia, Florida and Egyptian growers of long staple cotton will be deprived of the use of Carolina seed. It is believed that the outside world is dependent upon the use of Carolina seed for the quality of their staple, and that if they can be prevented from obtaining this seed the quality of their staple will deteriorate so rapidly that the sea island planters of South Carolina will practically control the fine cotton market of the world. Committees have been at work for some time preparing a plan for a combination, and it is believed now that the combine will be effected on Thursday.

King of Wurtemburg Dead.

STUTTGART, Oct. 6.-The king of Wurtemburg died at 7 o'clock this morning. He had been ill for some time and yesterday his condition became so critical that the last rites of the church were administered to him. with his request, but there is involved During the night his condition became worse and his physicians stated that he could live but a short time.

Karl I., king of Wurtemburg, was born March 6, 1823, and ascended the throne at the death of his father, King Wilhelm L., June 25, 1864. July 13, 1846, he married the Grand Duchess Olga, daughter of the late Emperor Nicholas L., of Russia. Prior to 1805 Wurtemburg was a grand duchy, but by the peace of Presburg it was erected into a kingdom. The civil list of the ruler of the kingdom amounts to \$442,-300, with additional grants of \$75,990 for other members of the royal family.

A New Appeals Court Opened.

CHICAGO, Oct. 7 .- The three judges of the new court of appeals of the United States for the Seventh judicial district ascended the bench in their court room in the Federal building at noon yesterday and opened court. The judges are: Justice Harlan of the supreme court of the United States, and Judges Gresham and Blodgett, of the United States courts for this district. The robes worn were of black silk, gathered in large ruffles at the shoulders, forming a cape that hangs down opened according to the English form.

A BIT OF HISTORY.

Strange Story About an Interview Between Queen Victoria and the German Emperor -- How the Queen's Tact and Firmness Prevented War in Europe.

New Your, Oct. 5.- The Berlin correspondent of the Herald, cabling his paper, says: "I have now authority to say that had it not been for the excellent woman's common sense of Queen Victoria and the sound judgment of the czar who, in the moment of emergency, acted in perfect accord, Europe would perhaps at this very moment be in the throes of war. CHONG SAM'S APPEAL.

The President Unable to Allow His Return to Canada Although Asked By the British

WASHINGTON, Oct. 5.-The case of Chong Sam, a Chinaman who entered vention of planters of sea island cotton the United States from Canada and who was ordered returned to China, has been finally disposed of. Sir Julian Pauncefote, the British minister, interested himself in the case on the ground that the man had a domiciliary residence in Canada, and he should therefore be allowed to return to Canada, and in order to accomplish that purpose he urged that the president grant a pardon to the Chinaman.

The president wrote to the secretary of state as follows: "I have had under consideration the case of Chong Sam, a Chinese subject who crossed from the Dominion of Canada to the United States, and was arrested at Port Huron her majesty's minister to this country, had made some representations and the request that this man should be returned to Canada.

"You will please say to Sir Julian that if this were a single case, it would give this government great pleasure to show its consideration by complying in the case, in my opinion, the whole question of the success and enforcement of our exclusion acts. If Chinamen can land in Canada and suffer no penalty for crossing our line than that of returning to Canada, from which they may again repeat their attempt to enter our territory the law becomes practically a dead letter. I have therefore advised the secretary of the treasury to send this man back to China. It is probable that the question whether it is right under our law can be decided by an application for a writ of haboas corpus in behalf of this man."

THE CROWD AT ST. LOUIS.

& Round of Attractions, Very Low Railroad Rates and Summer Weather Filling the City.

Trains on all roads to St. Louis have been carrying crowds of pleasure seckers for the ast month, but the great week of the 1841 Curnival is now at hend, and there will be thousands more flocking to the already well filled city during the next few days. The Fair extends from October 5 to 10, and is to be a much grander gathering than ever before. The new management has arranged for a series of novel attractions, including sensational horse leaping contests in which horses which have won numerous prizes in the Elast will compets. The exhibits generally are much more varied and valuable, and in every department of agriculture and manufacture there will be new triumphs. The contests in the amphitheater are alone worth crossing two States to see, especially as nearly all the rouds are seliing round trip tickets for one fare.

The exposition closes October 17. Those who have seen St. Louis' annual expenition past can easily understand what the 1891 effort is like when they realize that the triumphs of former years have been easily excelled, and that visitors from all parts of the world are delighted with the solid splendor and princely magnificence of the displays. The art department alone is an exposition in itself, many of the pictures being of international renown. The main nisles are crowded at all hours of the day with visitors with a keen appreciation of the beautiful, and the mechanical department keeps happy thousands of people who like to see the latest triumphs of inventive genius.

The street illuminations this year are as far above earlier efforts as those efforts were above anything ever attempted elsewhere. The last illumination for this year is on October 8th, and it will be, by all odds, the most magnificent of the series. The Grant statue, with its brilliant lights, the Goddess of Liber-"Where yer goin'?"
"Goin' ter try my luck out here on the 52,000 gas lights in globel of all the colors this street. Worked the same woman of the rainbow, and the thousands of electric lights, combine to make the Metropolis of the West as light by night as by day, and the scene on the downtown streets is an astounding one. These little bacilli, as the germs are called, are too small to be seen with the naked eye, but they are very much alive just the same, and enter the body in our food, in the air we breathe, and through the pores of the skin. Thence they get into the blood and finally arrive at the lungs where they fasten and increase with frightful rapidity.
